

Gold ingots and coins in stock, shipment is running again immediately after payment

March 22, 2022, Prague – IBIS InGold, one of Europe’s leading traders of physical investment metals, is resuming immediate shipments of investment ingots and coins to customers after a brief slowdown in shipments.

Extremely high demand and the continued long delivery times of refineries and mints caused the extension of the deadline for shipping goods to customers. Thanks to the excellent cooperation with the PAMP Refinery and The Royal Mint, we managed to arrange priority delivery of most weights of investment ingots and coins and IBIS InGold resumes shipping to customers in the standard mode, i.e. the goods will be shipped within 48 hours of payment.

Paid orders affected by the extension of the delivery period will be shipped to customers in the order in which they were paid. All paid ingots and coins will be in the hands of their owners within this week, within 10 working days at the latest.

Saving in gold and silver and fixing the prices of ingots and coins have never been restricted by IBIS InGold. Thanks to direct cooperation with the PAMP Refinery and The Royal Mint, all customer orders will be immediately secured by an order placed with processors. In spite of the global transportation problems and the excess demand for gold and silver over the production capacity of refineries and mints, most of the ingots and coins from IBIS InGold are shipped to customers within very pleasant delivery times. Now all the basic assortment of investment ingots and coins will be shipped again.
