

Elegant and confident Britannia expands a range of investment gold

November 1, 2022, Prague – The power and elegance of The Royal Mint is now available in gold. IBIS InGold, official partner of the mint from 1 November 2022, offers its clients gold investment coins Britannia.

Britannia investment ingots from The Royal Mint perfectly combine modern luxury with the national tradition and elegance inherent to the British. The 999.9 gold ingots will be available to customers in weights of 1 g, 5 g, 10 g, 20 g, 31.1 g, 50 g, and 100 g.

One of the great strengths of Britannia ingots is their design and craftsmanship. It was created by artist Jody Clark, who is also behind the portrait of the British royal family. The reverse side of the ingot depicts the confident warrior Britannia, who has adorned British coins since the days of ancient Rome. Strong and elegant, Britannia with her iconic trident guards the fierce waves of the sea just as gold ingots guard the safety of their owners' savings.

“The Royal Mint is a traditional prestigious mint that has accompanied the British nation since 886. The official cooperation that IBIS InGold has managed to establish with the Royal Mint is a prestigious and a calling card for us at the same time. It is an appreciation of the quality of work and services we provide to our clients,” adds Petr Špičák, Marketing Director of IBIS InGold.

Already at the end of last year, IBIS InGold began selling Britannia investment coin ingots made of pure silver. With the addition of gold investment ingots, the company now makes a complete offer of investment ingots minted by the mint available to its customers.
