About IBIS InGold

IBIS InGold is a leading gold and silver trading broker. It has been active on the market for over 20 years. It is a European leader in savings plans investing in gold and silver. Simple and flexible savings plan, known as iiplan[®], with contributions as low as EUR 4 per month is available to the public.

The company is directly linked to the Swiss PAMP refinery. This allows IBIS InGold to provide its customers with the best service during buying, as well as when selling off the purchased investment metals. The funds are transferred to the client's account within 48 hours of the confirmation of the binding purchase price. Together with the purchase price of the metal, clients can also enjoy repurchase bonuses.

With their savings, clients can also use a free deposit of their ingots and coins. IBIS InGold has been tested by more than 35,000 customers.
