

Gold available to everyone. The iiplanRentier® saving takes the possibilities of buying physical gold to a new level

October 1, 2022, Prague – Freedom and independence in saving is the goal of most financial consultants. This is what the new iiplanRentier® style of buying physical gold from IBIS InGold, a leading distributor in the European gold market, brings.

*“iiplanRentier® – gold annuity – combines the **advantages of existing products** and appeals to a **wide range of customers**. It makes buying gold easier and more convenient, while expanding the options customers can use to manage their savings. We bring our customers **advantageous long-term savings in physical gold**, which they can use, for example, as a **security for retirement, savings for children’s studies**, which will **protect their savings from inflation** and allow them to **draw money** when they need it or simply want it without obligations and complications,”* explains the advantages of the new product Marketing Director Petr Špičák.

iiplanRentier® is affordable saving in physical gold that can be managed with the same ease as a regular account. Customers use their payments to purchase a 10-ounce gold investment ingot on an ongoing basis, giving them the opportunity to purchase investment gold at a very favourable gram price. Moreover, by saving regularly, they benefit from the price averaging effect, while minimising the possible negative impact of price fluctuations in the markets.

“With iiplanRentier® saving, our customers can build up a gold reserve from which they can draw a regular annuity. This can then supplement their current income, e.g. during the period of receiving a retirement pension, during a long-term illness or injury, during studies, etc., and help them maintain their standard of living,” adds Petr Špičák.

Payouts from iiplanRentier® can be freely combined and changed, and customers always simply set them to their liking. In addition to regular cash payouts, customers can enter one-time payouts or have regular payouts sent to them in investment metals. They can also transfer gold from their weight account to other people on their iiplanRentier® or iiplanGold® contracts. Payouts can be entered in all currencies in which IBIS InGold allows payments.

About IBIS InGold

IBIS InGold is a leading trader with investment gold and silver. The company has been operating in the market for over 20 years. Within Europe, they became a leader in providing saving in gold and silver. They provide the general public with simple and flexible saving under the trademark iiplan® and iiplanGold® with the amount of instalments already from EUR 4 per month.

IBIS InGold is the official authorized trading partner of the Swiss Refinery PAMP and The ingots Royal Mint. It is the only company that is a direct business partner of the most prestigious European refinery and at the same time the most prestigious European mint. No other company can boast of a simultaneous direct sales representation of the PAMP Refinery and The Royal Mint.

As a result of this, IBIS InGold can provide its customers with the best services both during the purchase as well as during the repurchase of the investment metals bought. Another advantage is a unique possibility of verifying the origin and authenticity of investment gold by means of VERISCAN™ technology.

They guarantee its customers to be the first holders of the investment ingots and coins bought while guaranteeing them to repurchase investment coins and ingots sold by them. The funds are remitted to the account of the client within 48 hours from confirming the binding repurchase price. Moreover, they provide repurchase premium in addition to the repurchase price of the metal.

More than 60,000 customers trust IBIS InGold.
